### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, paragraph 1 has been changed to read as follows:

--This application is a continuation-in-part of application S.N. 10/054,501 filed on January 22, 2002, Pat. No. 6,647,709, which is a continuation-in-part of application S.N. 09/778,340 filed on February 7, 2001, Pat. No. 6,457,305.--

The following is an examiner's statement of reasons for allowance:

The claims are deemed allowable because the prior art does not teach or reasonably suggest a turbo shaft engine having a primary air duct, a primary combustion chamber connected to the primary air duct, a primary inlet passage connecting the primary air duct with the primary combustion chamber, means positioned between the primary air duct and the primary inlet passage for reversing the flow direction of the intake flow portion, an exhaust nozzle for discharging the motive flow into the primary air duct slightly downstream of the air intake, an exhaust discharge guide member having a Coanda profile positioned in the primary air duct downstream from the exhaust nozzle, and a turbine fan assembly coupled to the outlet port.

Art Unit: 3746

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
